CAREER OBJECTIVE

First-year B.Tech student in Computer Science and Engineering with Artificial Intelligence and Machine Learning, interested in software development and Python-based backend technologies. Building practical projects to strengthen programming, web development, and problem-solving skills. Seeking opportunities to learn, contribute, and grow as a software developer.

TECHNICAL SKILLS

Programming: Python, JavaScript (basic)
Web Technologies: HTML, CSS
Backend & Database: FastAPI, MySQL, Supabase (project exposure)
Tools: Git, GitHub, VS Code

PROJECTS

NTalk – Web-Based Chat Application | Live Project

• Developed a WhatsApp-style web chat project with user profiles and messaging features.
• Used Supabase for backend services and data storage, with GitHub Pages for hosting.
• Project work includes chat interface development and exploring real-time communication features.

Personal Portfolio Website | Live Portfolio

• Created a personal portfolio website to present development interests, skills, and projects.
• Used web technologies to build and publish a personal online profile.

EDUCATION

B.Tech – Computer Science and Engineering with Artificial Intelligence and Machine Learning (CSM)
JNTUA College of Engineering, Kalikiri | 1st Year | Expected Graduation: 2030

Intermediate: 926 / 1000 (92.6%)
SSC: 513 / 600 (85.5%)
