CAREER OBJECTIVE

Energetic and dedicated Electronics and Communication Engineering graduate with practical experience in Java, and basics. Eager to apply my technical knowledge and problem-solving skills in a challenging entry-level role while continuously learning and growing in a professional environment.

EDUCATION

- | | |
|--|------------------|
| ○ B.Tech in Electronics and Communication Engineering
Aditya College Of Engineering, Madanapalle
Percentage: 76% | 2022–2026 |
| ○ Intermediate (MPC)
Krishna Reddy Siddartha Junior College, Madanapalle
Percentage: 72% | 2020–2022 |
| ○ Secondary School Certificate (SSC)
Vivekananda Municipal High School, Madanapalle
Percentage: 99% | 2020 |

TECHNICAL SKILLS

- **Programming:** python
- **Database:** SQL, C, C++
- **JDBC:** Database Connectivity
- **Web Technologies:** HTML, CSS(Basics)
- **Embedded Systems & IoT:** Arduino, Embedded Robotics, VLSI Design
- **Tools:** Git, Arduino IDE, VS Code, Eclipse/ IntelliJ IDEA

PROJECTS AND ANALYSIS:

Crowd Monitoring System Project Description

Developed a crowd monitoring system that uses cameras and image processing techniques to detect crowd density in real time. The system analyses video feeds, identifies overcrowded areas, and generates alerts to help authorities manage public safety and avoid congestion.

Roles and Responsibilities

- Analysed business and functional requirements.
- Designed the architecture of the crowd monitoring solution.
- Developed crowd detection and counting algorithms.
- Processed real-time video streams from cameras.
- Integrated cameras and sensors with the monitoring application.
- Implemented threshold-based overcrowding alerts.

IOT-Based real time crop irrigation, Disease Identification and animal intrusion alert system

Smart Irrigation: Automatically waters crops based on soil moisture levels.

Disease & Animal Detection: Detects crop diseases and sends alerts when animals enter the field.

Roles and responsibilities:

- Developed an IoT-based smart agriculture system with automated irrigation.
 - Integrated crop disease detection and animal intrusion alert features using YOLOV8.
-

Internships

Java Development Intern – SLP IT Technologies (Dec – April 2026) ○

Hands-on experience in Core Java and OOP.

- Worked on backend logic and database integration.
- Debugged and tested Java applications.

Python – Sattva Infotech (2025)

- Worked on Python-based development projects, contributing to automation and software tools.
- Gained Experience in real – world software development, debugging and version control.

VLSI Design – SkillDzire Technologies pvt.ltd (2025)

- Trained in VLSI design methodologies and tools.
 - Involved in front-end or back-end VLSI design workflows using industry-standard tools.
-

Certifications

- Java Development – SLP IT Technologies
 - VLSI Design – SkillDzire Technologies Pvt. ltd
 - Python Development – Sattva Infotech
 - Full stack development (MERN) – Smart Bridge Educational services Pvt. Ltd.
 - NPTEL Certification – Introduction to Machine Learning
 - Poster Presentation – Gesture-Controlled Robotic Arm
-

Languages

- English
 - Telugu
-

Personal Information

D.O.B : 21-05-2003

Gender : Female

Father's Name : D Venkatramana

Hobbies : Listening Music, Cooking, Travelling.

Address : 3-146-23-6-6-1, Chowdeshwari Nagar, Madanapalle, Annamayya District.

Declaration

I hereby declare that the above written particulars are true and correct to the best of my knowledge and belief.

Signature

D Gayathri.
